

Every day, Charles Hart Middle School will ensure a safe, challenging, and inspiring educational experience for ALL.

FOCUS AREA	LITERACY	MATH	SOCIAL EMOTIONAL LEARNING (SEL) & ATTENDANCE
SCHOOL STRATEGIES	<p>Hart is focused on providing effective writing instruction, monitoring student learning, and providing effective writing feedback.</p> <p>Engage in weekly professional development to strengthen student writing through data analysis and lesson planning.</p>	<p>Hart is focused on strengthening student mathematical abilities through data analysis and lesson planning.</p> <p>Hart will review student data on an ongoing basis and use data to reteach concepts and group students to meet their needs.</p>	<p><b>SEL</b> Hart will ensure that teachers and adults have meaningful engagement with students. Hart will empower students and prevent bullying.</p> <p><b>Attendance</b> The Attendance Team will meet on a weekly basis to review attendance data, conduct home visits to support attendance, and create targeted next steps for students.</p>
EDUCATOR ACTION STEPS	<p>Empower teachers to analyze and monitor student work and adjust instruction to improve student outcomes.</p> <p>Use data to identify students needing targeted interventions and support.</p> <p>Create a process for all students to reflect on their growth as writers.</p>	<p>Teachers will engage in weekly professional development to analyze student work and create reteach plans.</p> <p>Use data to identify students needing targeted interventions and support.</p> <p>Hart teachers will build opportunities for students to engage in rich academic</p>	<p><b>SEL</b> Meet with students on a regular basis to address social emotional needs, advise in academics, and build community.</p> <p><b>Attendance</b> Monitor student attendance data and meet with families to support attendance.</p>

		conversations that allow them to expand on their learning of math concepts.	
STUDENTS WILL	Students will strengthen their writing to more effectively communicate their understanding of texts and to develop arguments through instruction and feedback.	Students will build their conceptual understanding of math by being able to explain their thinking and by having rich academic conversations, so they are able to transfer their knowledge and skills.	<p><b>SEL</b> Students will develop positive and meaningful relationships with their teachers and peers.</p> <p><b>Attendance</b> Students will increase their attendance and understand the importance of attending school every day.</p>
